SUMMARY

Computer Science undergraduate at NUS, AWS Certified Cloud Practitioner, and former software engineering intern who builds full-stack web apps (React, Next.js, TypeScript, Go, PostgreSQL) and CI/CD pipelines.

EDUCATION

National University of Singapore *Aug 2025 - May 2029*

Bachelor of Computing in Computer Science, Minor in Quantitative Finance

- **Teaching Assistant:** IS1108 Digital and AI Ethics (Aug 2026 - Present)
- **Coursework:** Software Engineering, Data Structures and Algorithms, Computer Organization, Discrete Structures

St. Louis 1 Senior High School, Surabaya, Indonesia | Valedictorian, Natural Science Major *Jul 2022 - May 2025*

EXPERIENCE

HDI Family International *Jun 2026 - Jul 2026*

Software Engineering Intern | PHP, Laravel, jQuery, Bootstrap

- Architected an end-to-end HR careers and recruitment platform in Laravel (PHP), modeling the hiring process as a stateful workflow engine that tracks each candidate's stage.
- Automated candidate and recruiter notifications with cron-scheduled jobs, and built token-authenticated self-service flows for candidates to securely manage their applications.
- Built a service-layer export pipeline for recruiter reporting and responsive Bootstrap/jQuery front-end pages.

PPI Singapura (Indonesian Students Association in Singapore) *2026 - Present*

Software Developer | Next.js, GitHub Actions, Vercel, Supabase, Neon

- Selected by the team head to own CI/CD, building GitHub Actions pipelines for automated testing and deployment of the backend, website, and dashboard to Vercel.
- Resolved merge conflicts from a big-bang integration of separately built modules, and wired the frontends to the backend (Supabase authentication, Neon PostgreSQL).

Google Developer Group (GDG), NUS Computing *Aug 2025 - Present*

Head of Technology | Software Engineer

- Develop and maintain GDG NUS's React platform, supporting initiatives with 5+ nonprofit and community partners.
- Lead technical operations for Hack4Good, a 100+ participant social-impact hackathon with community partners.

PROJECTS

AIGC Detection & Repetition Analytics Platform | TikTok TechJam 2026 *Aug 2026*

- Built an AI-generated image (AIGC) detector in Python using CLIP ViT-L/14 embeddings with an MLP classification head, reaching 80.5% accuracy through data augmentation and partial-backbone fine-tuning.
- Fixed key training/eval bugs and integrated the model into a FastAPI + React web app for real-time detection.

Module Quest | NUS Orbital, Apollo 11 (Advanced) *Jul 2026*

- Built a gamified learning platform for NUS Computer Science and Electrical Engineering modules.
- Designed boss-battle quiz combat after each topic and a leaderboard to motivate learners; deployed on Vercel.

University Discovery Platform *Mar 2026*

- Built a full-stack platform for 100+ universities with a REST API/PostgreSQL backend for real-time filtering and ranking, plus a MediaPipe Hands gesture mode for pan, zoom, and click over Google Maps Street View.

TopicNest - Community Forum *Jan 2026*

- Built a full-stack forum solo with a Next.js/React (TypeScript, Tailwind CSS) frontend and a Go (Gorilla Mux) REST API on PostgreSQL, with topics, posts, comments, likes, bookmarks, search, and profiles.
- Deployed the Go backend on Railway, then migrated it to Next.js serverless API routes on Neon PostgreSQL.

LEADERSHIP & COMMUNITY INVOLVEMENT

Misi Kami Peduli (MKP) *May 2026 - Present*

Executive Committee, Technology

- Lead MKP's website development to support fundraising and outreach for rural communities in Indonesia.

CERTIFICATIONS & AWARDS

AWS Certified Cloud Practitioner, Amazon Web Services *Jul 2026 (valid until Jul 2029)*

SASMO Math Olympiad Gold Medal; National Olympiad in Informatics (NOI) Provincial Level Participant *2023*

TECHNICAL SKILLS

- **Languages:** Python, Java, C++, JavaScript, TypeScript, Go, PHP, SQL, HTML, CSS, MATLAB
- **Frameworks:** React, Next.js, Angular, Node.js, Express.js, FastAPI, Laravel, Tailwind CSS, jQuery, Bootstrap
- **DevOps & Cloud:** CI/CD, GitHub Actions, Vercel, Railway, AWS, Microsoft Azure, Git, Vite
- **Databases & APIs:** PostgreSQL, Supabase, Neon, REST APIs
